

Cloud Project Engineer

At ZeroLight we live by four key values – innovation, quality first, market focus and collaboration. As Project Engineer on our successful Cloud team your role will incorporate these values as you work at the forefront of 3D technology and partner with some of the biggest brands in the automotive and technology world including Audi, Pagani, Toyota and Unity.

This is a rare opportunity to gain experience at one of the UK's most exciting technology start-ups. We are looking for a dynamic individual with a passion for both technical and client facing work. The successful candidate will be forward thinking with a positive, high energy approach to all tasks. They will thrive whilst working in a challenging and fast paced environment.

THE ROLE

Key responsibilities of the Cloud Project Engineer will include managing and deploying innovative Cloud-based services for customers in the automotive industry. The successful candidate will have extensive knowledge on scalable services on cloud architectures ensuring reliability and speed across multiple platforms. They will also have experience working directly with non-technical customers.

Key skills must include:

Administration of a virtualised cloud infrastructure and platform.

Understanding of web technologies such as:

- o Server OS (Linux, Windows Server 2012),
- o Web security (WAF/Layer7, SSL),
- o Server Coding (NodeJS, CherryPy),
- o Proxies(Nginx, HAProxy),
- o Cloud Platform Providers (AWS, Azure, GCE),
- o SQL, NoSQL (MongoDB),
- o Client coding (HTML5, JavaScript, CSS)

General programming skills preferable.

AWS Certification preferred.

THE PERSON

Commercially experienced with a passion for building innovative features and working with the very latest technologies.

Comfortable dealing with customers located around the world whilst delivering the highest quality service.

Knowledge of virtualisation, preferably GPU virtualisation.

Degree educated in relevant discipline.

Proven ability to work collaboratively within a small team to overcome challenges and maximise business potential.
